All waste received was disposed of under State of Texas Landfill regulations. The site is used by City refuse trucks servicing the southwest and west area of San Antonio and private waste haulers servicing apartment houses and commercial and retail businesses. Some industrial waste was received in the past between 1967 and early 1979. Attached is a report from the Texas Department of Health evaluating such waste and its possible threat to public health and the environment.

As the site operated under a grandfather clause until a full permit application was submitted in 1979 and a public hearing held in 1980 all design features specified in the current state of the act have been included. Permit No. 633 is on file with the Texas Department of Health.
